WATERFRONT NEWS

ALL BECAUSE OF A LUMP OF SUGAR

Why Acting Shipping Commissioner Dias Was Pleasant Yesterday.

J. B. Dias, who is acting shipping commissioner, is a very handsome young man and his good looks have attracted attention more than once. Recently Captain Spicer of the ship Florence took one of Dias' photos with him on starting on his return voyage to Tacoma. In Tacoma Captain Spicer showed the photograph to a young lady of his acquaintance and out of this may grow one of the prettiest little romances ever heard of.

Captain Spicer's photograph of Dias showed a handsome vignette of the young man. He permitted a young school teacher in Tacoma to see it. "What nice classic features," declared the young woman, "and is not that beautiful wavy hair? Just notice those eyes. Are they not bright? Say, Captain, couldn't you bring this gentleman up from savage Honolulu and give us a chance to look at him?"

Spicer promised to bring Dias back with him. On his arrival at Honolulu a few days ago he told young Dias of the young woman who had "made a mash on him." Dias simply smiled. Yesterday the Captain received a letter and a package from the young lady. The package was a small one and contained a half dozen lumps of sugar. The letter was a brief one. It simply told Captain Spicer "to hand one of these lumps over to that Honolulu 'Johnny' and give him my best." Spicer did as requested. During the presentation Dias' cheeks wore a rosy hue. He took the lump of sugar, stamped it with the date and after writing the young woman's name on it proceeded with his work.

A couple of sailors who were brought in to "sign on" the barkentine James Tuft could not understand why the man in charge was so pleasant. It was all because of the sweet.

LAST ASSESSMENT.

Oceanic Steamship Stock Is Now Fully Paid Up.

SAN FRANCISCO Sept. 18.—When the last assessment on Oceanic stock, levied yesterday, shall have been paid it will be fully paid up; that is to say, it will have cost the holders or those who have in succession held it, just \$100 a share.

The final assessment is \$7.75 a share and the stock is poorer than it was on the day the last previous assessment was levied. In the language of the street, the stock has not carried the assessment. On October 18th, when the last assessment becomes delinquent, the stock, if it carry the assessment, should go to \$21.25; but no one imagines it will do so, for the reason that the stock has no vitality and cannot be galvanized into life while there is such a heavy overdraft.

Whether the overdraft be \$550,000 or \$600,000, the fact remains that some new means of raising money must now be found, because no more assessments can be levied. The new steamers that cost so much more than it was intended they should are not paying; freight offerings are light, and the operating expenses are heavy.

Mauna Loa's Arrival.

The steamer Mauna Loa arrived from Maui, Kona and Kau ports early yesterday morning. She had 4473 sacks of sugar which were discharged into the barkentine S. N. Castle. Her other freight consisted of 213 sacks coffee, 163 sacks taro, three sacks awa, 149 bundles bananas, twenty kegs butter, ten barrels poi, twenty-six pieces koa wood, seventeen pigs, thirty head cattle and 229 packages sundries.

Sailors Are in No Hurry.

The sailors employed in discharging coal from the ship Florence at Railway wharf are in no hurry to accomplish their work quickly. During all of yesterday forenoon the sailors only managed to get out eighty tons. The trouble is that they wish to be discharged and as their skipper is unwilling to let them go they are not trying to make a record in handling coal.

King Returns to Laysan.

Max Schiemmer, "King of Laysan Island," returned to his island domain yesterday, taking eleven Japanese laborers with him on the bark Albert which is seeking a cargo of guano. Under present conditions the Albert should make her run down to Laysan Island in about three and a half days but may take considerable time in returning.

Will Pay No Duty.

Mr. Stackable, Collector of Customs, received directions from the Treasury Department, by the last mail, to allow all articles for use on the Experimental Station to come into the Territory free of duty.

Jas. Tuft Sails Sunday.

The barkentine James Tuft, Captain A. Fridburg, sails on Sunday in ballast for Port Angeles, where she is to load lumber for Sydney.

BOYD WILL STAY IN THE ORIENT

So He Informs His Friends—No Word Yet as to Successor.

Advice were received by the last mail from China from W. H. Boyd, shipping commissioner for Honolulu, who is away on a two months' leave of absence and was expected to remain in China. Mr. Boyd will not return to Honolulu, although when he left here there was some doubt as to him considering his chances good enough to keep him in the Far East.

Mr. Boyd did not state whether he had forwarded his resignation as shipping commissioner although there are numerous applicants for the job. He stated, however, that he had a good position as secretary to the American-China Development Company, which is building some railways for the Chinese government. He likes the country and will remain there.

COMING LINE OF STEAMERS

Robert S. Hapsworth of New York, a representative of the new, American Asiatic Steamship Company, recently incorporated under the laws of Maine, has been in the city at the Palace several days gathering pertinent information for his company. He left for Vancouver last night on the Oregon Express en route to China. Mr. Hapsworth says the company is backed by the same syndicate of Americans which is building the Hankow-Canton Railroad. The president of the latter is William Barclay Parsons. He is also the head of the steamer company.

According to Mr. Hapsworth, the new line intends to build up a large trade direct between New York and such Oriental ports as Yokohama, Nagasaki, Singapore, Manila, Hongkong and Shanghai. The service is to be inaugurated late in October by the new steamship, Gibraltar. The service for the present will be monthly.

"There is a good field for the new line," said Mr. Hapsworth, "and many large New York firms will give it plenty of business. It will be a paying venture in spite of existing Suez competition, and that of the Pacific Coast steamer lines."

Activity of the Volcano.

Purser Willie Simerson of the steamer Mauna Loa always smiles when people ask him about the volcano. The reason for this is that he is always met by a number of reporters at the wharf in Honolulu whom he knows he will disappoint if he has no news of fresh outbreaks. He says that on his latest trip while at Kilauea he received a telephone message on Wednesday from the Volcano House stating that Kilauea had suddenly increased in activity. No message has been received concerning the matter by "wireless" but it is possible that the Claudine may have news of the volcano on her arrival from Hilo today.

China Off o the Orient.

The Pacific Mail liner China sailed for the Orient at noon yesterday after picking up a number of passengers at this port. Messrs. McCabe, Hamilton and Renny, who had charge of the stevedoring of the vessel, got 500 tons coal into her bunkers in eleven hours, which feat is considered good work.

CHILD WEAKNESS.

You can worry for months about your weak child and not succeed in doing it even a small fraction of the good that comes from little daily doses of Scott's Emulsion.

This unfortunate weakness in some children invites all manner of disease. The cure is not a matter of a day—but the cure is almost vital to the child's success in life.

The full benefit of all the power in pure cod-liver oil is given to weak children by Scott's Emulsion. Children like it and thrive on it. Perfectly harmless yet powerful for good.
